

LIVE TRENTO. RESPECT IT.

A practical guide to participating
in major events
in a responsible manner

LEAVE YOUR CAR AT HOME

Trento can be reached easily and comfortably visited on foot or by bike. During major events, choosing sustainable modes of transportation really makes a difference:

- **Reach the city by train or bus:** the historic center is just a few minutes from the station
- **Get around on foot or by bike:** you'll avoid traffic and any road closures
- If you arrive by car, **use park-and-ride facilities** and continue by public transport or on foot
- Check official channels in advance **for updates on traffic and transportation**

SORT YOUR TRASH AWAY FROM HOME

During a major event, waste generation can increase. Your help is essential to keep the city clean and to protect the environment

- **Please use the designated trash bins and recycling stations**
- **Don't leave trash on the ground:** carry it with you to the next recycling bin
- **Please sort your trash** properly according to local recycling guidelines

EXPLORE RESPECTFULLY

When there is a remarkable turnout, everyone's contribution is important:

- **Respect residents and private property:** the event areas are also places where people live their daily lives
- **Keep your voice down,** especially in the evening
- **Take care of public and private spaces,** helping to keep them tidy

SMALL GESTURES, BIG IMPACTS

Practice sustainable habits during your stay as well:

- **Use public water** fountains to refill your water bottle
- **Avoid wasting water:** take short showers and reuse towels whenever possible
- **Turn off lights** and devices when they're not needed

Thank you!
